

**Project:** Full project management - Building transfer and electrical decommissioning

**Client:** Mitie

**Application:** End of lease transfer back to landlord

ParCar were contracted by Mitie to provide a one stop solution for a major building decommissioning project in Portsmouth. The work included packing and shipping equipment and materials to multiple locations in Europe, stripping out fixtures, removal of heavy machinery, building cleaning, electrical strip out and making safe.

ParCar's provision of an end to end project management service enabled the client to move with the minimum of fuss .

**ParCar liaised with our client, the end user client and the building's landlords as well employing, co-ordinating and managing all sub-contractor trades to provide seamless and comprehensive delivery.**
